Re: Los Angeles International Airport Part 161 Application – Revised May 2014

Dear Mr. Byers:

On behalf of Los Angeles World Airports (LAWA), I am pleased to submit the revised "14 C.F.R. Part 161 Application for Approval of a Runway Use Restriction" at Los Angeles International Airport and, pursuant to §161.311, to request FAA review and approval.

Similar to the original application, we are submitting six printed copies of the revised application, each with a full-size (1" to 2,000") set of the flight track and contour figures, and six data CDs. We are also providing two printed copies with full-size figures and two data CDs to Steve Karnes in the Northwest Mountain Region Office, and three printed copies with full-size figures and three data CDs to Dave Cushing in the Los Angeles Airports District Office.

As demonstrated in our application, the proposed runway use restriction meets all statutory conditions for approval. We expect you will find the application to be complete and make such determination within 30 days of receipt, in accordance with §161.313. Please contact me via phone (424-646-6499) or email (statro@lawa.org) if you have any questions during the review of our application for the proposed runway use restriction.

Sincerely,

Scott Tatro
Airport Environmental Manager I
